1.48	Richbourg Rd	E North St (0.03 miles S)	2010	2,300

Data Note: The Traffic Profile displays up to 30 of the closest available traffic counts within the largest radius around your site. The years of the counts in the database range from 2014 to 1963. Over 25% of the counts were taken between 2010 and 2014 and over 77% of the counts were taken between 2000 and 2014. Traffic counts are identified by the street on which they were recorded, along with the distance and direction to the closest cross-street. Distances displayed as 0.00 miles (due to rounding), are closest to the site. A traffic count is defined as the two-way Average Daily Traffic (ADT) that passes that location.
